Suitable boss cover caps are now also available, including in onyx black

The new CLIP top BLUMOTION 155° – The secret's inside!

Our 155° hinge has proven itself worldwide, and now we have given our wide angle hinge a new design. The CLIP top BLUMOTION 155° wide angle hinge sets new standards, and its new design combines familiar adjustment with the very highest quality of motion. Thanks to its sophisticated technology, the BLUMOTION dampening is compactly integrated directly into the hinge arm. The installation size remains that same. The result: a 155° hinge that provides complete satisfaction.

CLIP top BLUMOTION 155°
