Step 1	Step 2

First, touch to open drawer.

With the drawer fully extended, reach under the drawer and squeeze the release levers for the locking devices. Then pull drawer straight out.

Step 3

Carefully remove the synchronization rod. Repeat these steps on the remaining drawers.

Further details - To watch the TIP-ON BLUMOTION synchronization rod video, please visit youtube.com/bluminc

Step 4

Now install the cabinet, ensuring that the cabinet remains square and true.

For proper function, it is important that the cabinet does not become racked during installation.

**Step 5**

part no.	65.5631.US

Next, use the gray front gap template to ensure the front gap is set correctly for optimal function of TIP-ON BLUMOTION.

Further details - To watch the TIP-ON BLUMOTION front gap template video, please visit youtube.com/bluminc

Step 6	Step 7

Touch to extend the right and left runner.

Insert the synchronization rod.

Step 8	Additional instructions -->

Insert the drawer.

Repeat this process for the other drawers in the cabinet.

Drawer front adjustment
| 1	2	3	4	5
Remove cover cap	Drawer front realease	Side-to-side adjustment - moves drawer front left or right	Height adjustment - moves drawer front up and down	Tilt adjustment

Trouble shooting

Level

Check to ensure that the runners are level, perpendicular to the face of the cabinet, and parallel to each other.

Square

Check drawer box squareness, either by measuring from inside corner to inside corner, or by using a framing square.

Helpful hints

Closed   **Open**
To remove or insert the synchronization rod, the pinions must be put in the open position by touching the drawer front or runners to open them.

Broken synchronization adapter
If a synchronization adapter is broken, it can easily be replaced by simply sliding another in its place.
