

TIP-ON for AVENTOS HK

The touch latch mechanism for handle-less stay lifts

PRODUCT
MEMO

 blum®

Whether in the kitchen, living room or bathroom: Handle-less furniture have become an established element of modern furniture design. TIP-ON, our mechanical opening support system, ensures small stay lifts can be opened comfortably & easily.

Opening stay lifts with just a press

Thanks to TIP-ON for AVENTOS HK, handle-less stay lifts open with just a light press. To close, simply press lightly on the lift system. A catch plate attached to the inside of the front ensures secure closing.

TIP-ON for AVENTOS HK provides functional opening comfort. Just press on the furniture front and the lift system moves upward.

To close, just press lightly on the lift system.

i

Easy assembly

For drilling assembly, the TIP-ON unit is drilled in the centre of the cabinet base.

The TIP-ON unit can also be attached using an adapter plate.

The catch plate is screwed or pressed into the front
